

# M's Canvashouse

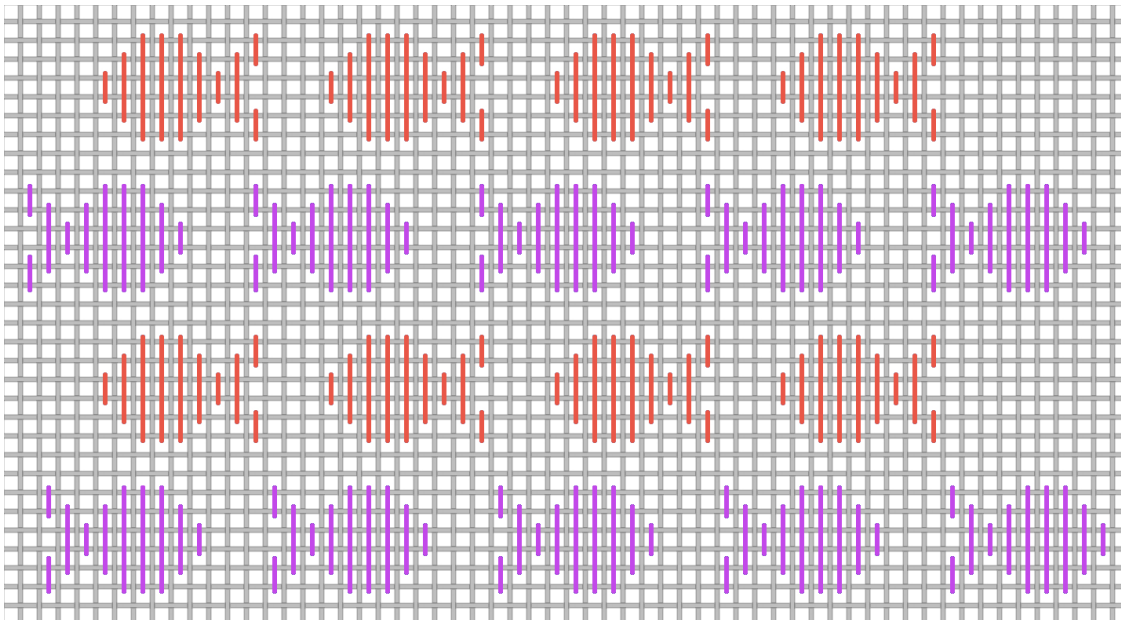

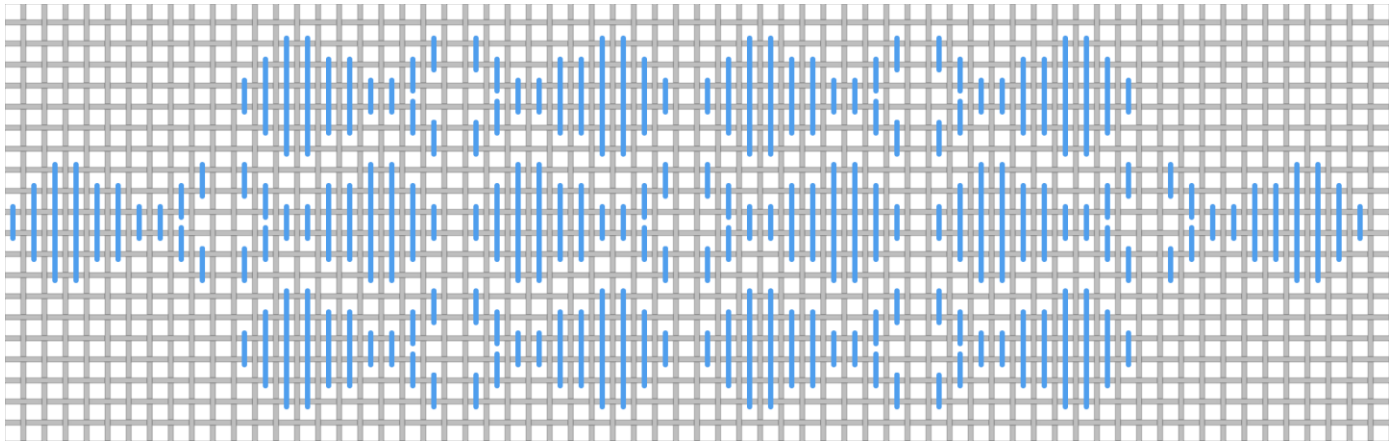

## Quarantine Class

Lesson 13

### Cat (Fish) Background Patterns

Having come from family of pet lovers, with 5 dogs and one sassy cat, I could not pass up the idea of doing some stitches for our fur babies! We are now spending so much time with them and I'm not sure all of them are really happy about it. I am guilty about posting pictures of my cat saying "what do you mean you're going to be home 24/7?" LOL! These are a very high impact stitches so stitch "lite" and if you use this as a background be sure to match the color spot on! You could stitch these as a darning method but that creates a entire different look. Try a petite Silk Lane or one strand of a stranded silk.
